DETAILED ACTION

STATUS OF THE CLAIMS: Claims 1-5, 9 and 13 are pending in this application.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 26, 2008 has been entered.

Response to Amendment Regarding

Claim Rejections - 35 USC § 112, 1st paragraph

1. The rejections, of claims 6, 9 and 13, have been overcome by Applicant's amendment in the reply filed November 26, 2008.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-4 define variables (where applicable—e.g., R₁₁-R₁₅) as aryl, heterocycle/heterocyclic. The terms are indefinite since the specification does not

define the ring size, heteroatom(s), number and nature of substituents, and the exact point of contact with the atom(s) for the substituents. Correction is required.

Claim 5 is rejected because it is dependent claims dependent on a rejected independent claim.

Allowable Subject Matter

3. The compounds and the pharmaceutical composition in Claims 1-5 were not found to be obvious or anticipated by the prior art of record. The prior art does not teach or suggest the nitrogen substituted hexahydropyrazino [1,2-a]pyrimidine-4,7-dione compounds substituted in the manner claimed by the Applicant. Therefore, these claims will be allowed, if amended to overcome the rejection under 35 U.S.C. 112, 2nd paragraph. The methods of claims 9 and 13 were not found to be obvious nor anticipated by the prior art of record. The prior art does not teach or suggest the methods comprising the nitrogen substituted hexahydropyrazino [1,2-a]pyrimidine-4,7-dione compounds substituted in the manner claimed by the Applicant. Therefore, these claims are allowed.

Conclusion

Claims 1-5, 9 and 13 are pending. Claims 1-5 are rejected. Claims 9 and 13 are allowed.
